

# AMAR KANT NAYAK

B.Tech AI/ML Student | Generative AI | Software Development | AI/ML | Web Development

## PROFILE

B.Tech Artificial Intelligence & Machine Learning student with hands-on experience building AI-powered applications, full-stack web projects, research systems, and hackathon prototypes. Interested in Generative AI, AI agents, software engineering, computer vision, product development, and practical technology solutions. Strong communication, teamwork, leadership, problem-solving, and presentation skills.

## TECHNICAL SKILLS

|             |                                                                          |
|-------------|--------------------------------------------------------------------------|
| Programming | Python, JavaScript, TypeScript, SQL                                      |
| AI / ML     | Generative AI, AI Agents, Machine Learning fundamentals, Computer Vision |
| Web         | React, Next.js, FastAPI, HTML, CSS, Tailwind CSS                         |
| Tools       | Git, GitHub, VS Code, Vercel, Cline                                      |
| Databases   | PostgreSQL, Supabase, Firebase fundamentals                              |
| Other       | REST APIs, responsive UI, rapid prototyping, software development        |

## PROJECTS

### NEXUS — AI Research System

- AI research platform with a Next.js frontend and FastAPI backend, designed to accept research questions and return structured AI-generated research responses, with plans for a modular multi-agent workflow.

### Real-Time Sign Language Translator

- Computer-vision project designed to recognize sign-language gestures through a camera feed and translate them into English text in real time, exploring OpenCV, MediaPipe, and AI/ML components.

### College Examination Platform

- Exam-platform concept for students and teachers with authentication, assessments, assignments, dashboards, database integration, and anti-cheating concepts including activity monitoring.

### Personal Portfolio Website

- Responsive portfolio built with Next.js, React, TypeScript, and Tailwind CSS, with interactive UI, animations, personal branding, and GitHub/Vercel deployment.

## EDUCATION

### B.Tech — Artificial Intelligence & Machine Learning

CMR Engineering College, Hyderabad | Currently Pursuing

### Class XII

Narayana Junior College | 60%

### Class X

Army Public School, R.K. Puram, Secunderabad | 72%

## ACHIEVEMENTS & HACKATHONS

- Winner — National-Level AI Hackathon.
- Participated in HackIndia Spark 10 and explored AI/ML-focused hackathon projects.
- Participated in multiple AI, Generative AI, software development, and web-development hackathons.
- Built and presented practical AI prototypes including computer vision and AI research applications.

## CORE STRENGTHS

Communication & Presentation • Problem Solving • Team Collaboration • Leadership & Initiative • Fast Learning • Product-Oriented Thinking

## INTERESTS

Generative AI • AI Agents • AI/ML • Software Engineering • Web Development • Product Building • Startups • UI/UX • Hackathons
